### Upham Woods Outdoor Learning Center

#### Mission Statement:

"Upham Woods Outdoor Learning Center provides educational opportunities to youth, youth leaders, and adults through programs focused on environmental and leadership education."

Upham Woods is the result of an amazingly far-sighted vision of two sisters from the Upham family. In 1941, when the United States was growing rapidly at the expense of its natural resources, Elizabeth and Caroline Upham decided to save their beloved childhood summer home from the hands of developers forever. These sisters laid the philosophical groundwork for Upham Woods with their stipulations of the land's use. They wrote: *"These lands are to be used as an outdoor laboratory and camp for youth, such as 4-H clubs and other people cooperating with the University of Wisconsin in the advancement of conservation, of agriculture and rural culture."* [Read more about it.](#)
